

MICHAEL SULLBERG CABERNET SAUVIGNON

100% Cabernet Sauvignon. A gorgeous ruby color. Juicy red cherry and blackberry fruit notes are balanced against dried lavender and a hint of spice, leading up to a long, pleasant finish. Great with food; try with braised pork shanks.

Small lots of grapes are selected from across California's premium growing regions, from Sonoma County in the north, to Paso Robles in the south and the San Joaquin River Delta in the east. The varying climate and geographical conditions of these regions produce grapes with unique fruit characteristics. By selecting grapes from varying appellations across California, the winemaking team is able to blend together the different fruit profiles, adding balance and complexity to the final wines. Michael Sullberg wines seek to harmonize the terroir of some of California's most premium regions with sophisticated winemaking techniques. The winemaking team aims to preserve the fruit-forward nuances of each lot to create bold wines that are complex, balanced, and attainable.

Michael Sullberg Wines was created by winemaker Michael Sullberg in 1990. For more than three decades, Michael Sullberg and family have worked to create a line of high quality wines at everyday prices. Michael's daughter Leah Sullberg carries on the brand today, nurturing her father's relationships with growers across California to deliver on her family's commitment to quality. "My father, Michael Sullberg, believed that everyone should be able to enjoy high quality wines at an affordable price," she says. Leah has followed in her father's footsteps, carrying this core belief with her.
