The Domaine Saint Cyr is proudly located in Anse, in the southern part of the Beaujolais known as *Les Pierres Dorées*, (the golden stones), after the golden-hued limestone which is emblematic of the region. La Galoche is the name of a small stream that runs by the winery. From a westerly facing portion of a 30-acre estate vineyard, 300m above sea-level. The soil is clay-limestone.

The vines were planted 1950s-2010s. The grapes were harvest by hand. Aged 5 months in stainless steel. Bottled unfinned/unfiltered.

Raphael Saint-Cyr is the fourth generation vigneron at Domaine Saint-Cyr, which was created by his great-grandfather, Pierre Saint-Cyr. The estate is located in Anse, at the southern edge of Beaujolais. When Raphael took over winemaking in 2008, he let go of a large portion of Beaujolais vines around the winery & acquired vines further north in the crus of Morgon, Regnié, Chénas & Moulin-à-Vent, & immediately converted the entire 56 acres to certified organic viticulture, making Saint Cyr one of the largest organic domaines in the Beaujolais.
