

MAS DES CABRES LANGUEDOC ROSÉ 'ESTIVE'

Mourvèdre and Cinsault. Fine aromas and flavors of spice, cherry and raspberry with a touch of sweetness. Impeccable balance and smoothness. Luscious, mineral finish. Organic.

From the Le Mas des Cabres (planted in 2005) and Paladasses (planted in 1993) Vineyards in the Languedoc Appellation. The total vineyard area is 3.33 acres with an altitude of 70-100m. The soils are red flint clay/stony marls and limestone. Grapes are crushed early with a low temperature fermentation in fiberglass tanks.

Located in the foothills of the Cévenne mountains, Languedoc-Roussillon, France, Mas des Cabres makes unique wines that reflect their specific limestone and red clay terroir, located where the Languedoc comes together with the Rhône Valley. Their philosophy is to minimize intervention from the vines to the cellar, so as to let the wines express their true nature. The name Mas des Cabres comes from the name of the central lieu-dit where the vineyards are situated. Cabres is the Occitan word for the goats that were bred in this area in the 18th century. The domaine has been farming organically since 2019.
