

SUCCÉS VINÍCOLA CONCA DE BARBERÀ TREPAT 'CUCA DE LLUM'

100% Trepát, a grape native to the Conca de Barberà region. A large, thin-skinned grape similar to Pousard or Schiava, Trepát produces light-bodied, aromatic wines reminiscent of Jura reds. Bright cherry red with a violet rim. Aromas of red berries, anise & fennel, with mineral undertones & notes of wet earth. Flavors of red fruit, balsam & spices. Clean, bright, fresh & light with mild, delicious tannins & balanced acidity. Medium spicy finish.

An easy to drink, inviting wine. Organic.

Albert and Mariona write: *"When we started as a company, our calendar was strict, so adapting to timetables was an obligation for us. One night, we went to pick up samples of grapes from one of the properties which provide us with the grapes for this wine, and we saw a firefly, which inspired the name of the wine."* The grapes were planted in the 1950s in the Conca de Barberà Appellation of Catalonia, Spain. The soil is calcareous clay. Altitude of 500m with a North East/South East exposure. Harvested by hand. Spontaneously fermented for 30 days with skin contact. Aged 5 months on the fine lees in stainless steel vats.

Albert & Mariona created Succés Vinícola together when they were only 20 years old & just out of school. Their infectious positive energy is reflected in their personality and their wines. They have pulled off the rather difficult trick of creating simple & fun wines that everyone will enjoy & which are produced naturally with respect for the growers & the land. Nearly all of the grapes for their wines come from vineyards owned by Albert's family that they farm themselves, with a small amount of grapes purchased in Serral & Barbera de Conca from producers who share their vision for local organic agriculture. New vintages are released in the early spring so that they can settle naturally during the winter to avoid any fining or treatments.
