

SUCCÉS VINÍCOLA CONCA DE BARBERÀ PATXANGA ROSADO

100% Trepát, a grape native to the Conca de Barberà region. Aromas of cherry, strawberry and cranberry. Flavors of watermelon, strawberry and lemon. Mouthwatering acidity and freshness. Organic.

Conca de Barberà is located in the North of the province of Tarragona, Catalonia, Spain. The altitude of their vineyards are 450-700 meters. The majority of their vineyards are composed of clay and limestone. Patxanga has two meanings: 1. It's a football street game with only one rule: to have fun with friends. 2. It's also a type of music typically played in the summer festivals in Albert & Mariona's village. Both concepts reflect summer, friends & fun, which was the idea of this wine. The grapes are hand-picked from 40-year-old bush vines located on a single vineyard, grown in calcareous clay. Direct pressed into stainless steel, spontaneous fermentation.

Albert & Mariona created Succés Vinicola together when they were only 20 years old & just out of school. Their infectious positive energy is reflected in their personality and their wines. They have pulled off the rather difficult trick of creating simple & fun wines that everyone will enjoy & which are produced naturally with respect for the growers & the land. Nearly all of the grapes for their wines come from vineyards owned by Albert's family that they farm themselves, with a small amount of grapes purchased in Serral & Barbera de Conca from producers who share their vision for local organic agriculture. New vintages are released in the early spring so that they can settle naturally during the winter to avoid any fining or treatments.
