

# CONTA-ME PORTUGUESE TALES VINHO VERDE ROSADO

Espadeiro, Amaral and Vinhão; the driest red grapes of the region. Rhubarb meets grapefruit aromas, with passionfruit on the palate and a dry finish, a bit of spritz, and a lot of acidity to keep you satiated.

Though this is vinho verde in its true essence, Conta-Me Vinho Verde is also a grown up version of what most know the region for.

From Barcelos - a region within the renowned Vinho Verde DOC - where we they worked with one of the area's most old-school producers. After careful selection of the grapes varieties of the region, the grapes were harvested and vinified using the most modern technology, destemmed, lightly pressed and fermented at a controlled temperature in stainless steel vats.

Conta-Me Portuguese Tales is a collection of wines that will give us an opportunity to work with the producers, regions, styles, and terroirs that continue to excite us in Portugal. . .and to create something that makes Naâma & Luis at NLC think of (and taste) the Portugal of Luis's parents and grandparents. Theirs was a generation that wasn't fussy about the fruit of the vine, before the "advent" of the winemaker, and who enjoyed every drop as part of their daily gastronomic ritual. How do you bottle the melancholic notes of Fado, the salty sea air of the Atlantic, the smell of wet earth, the wise & ancient gastronomy & the tradition of a thousand-year old country that stretches its limbs once more? NLC's portfolio of wines brings forth Portugal's new, old-world traditions with exquisite bouquets of national grapes, state of the art technology & discerning designs.

AN EASTERLY WINE SELECTION • BELFAST, ME
