

FOX TALES SAPERAVI

100% Saperavi, a dark-skinned and dark-fleshed *teinturier* variety native from Georgia. Aromas of black cherry, blackberry, blue plum, charcoal and campfire ash. Full-bodied and viscous palate. Generous and fruit-forward. Flavors of plum and dark bramble berries, balanced by high natural acidity, gentle hints of white pepper spice and smooth, velvety tannins. The finish is long and robust, with smoky oak and dark fruit depth. Pairs exceptionally well with hearty, rich meats, duck breast, wild mushroom pasta with truffle sauce and strong, mature cheeses.

Sourced from established vineyards within the Limestone Coast region of South Australia, an area that benefits from cooling summer ocean winds generated by the Bonney Upwelling. The vineyards sit at low-lying coastal elevations, planted in the region's prominent terra rossa soils composed of red clay loam resting above a deep, well-draining limestone base. The vines averaging 15 years old. In the cellar, the fruit was subjected to a gentle maceration lasting 8 to 10 days on the skins during a cool fermentation using selected yeasts. The wine completed its *élevage* by aging in old, neutral French oak barrels.

Fox Tales is an approachable, value-driven label produced by Limestone Coast Wines, a family-owned company based in the cool-climate Limestone Coast region of South Australia. Focused entirely on sustainable, vegan-friendly production, the brand is crafted by winemakers Leisha Munro and Stephen Tierney to deliver expressive, fruit-forward wines that offer exceptional regional freshness. Alongside classic, expertly crafted staples like their bright Sauvignon Blanc and robust Cabernet Sauvignon, Fox Tales distinguishes itself by championing alternative, globally inspired varieties suited to South Australian soils. This is highlighted by their deeply intense, estate-grown Saperavi—a rare, ancient Georgian red grape variety that thrives in the region and delivers a uniquely rich, dark fruit profile.
