

FOX TALES SAUVIGNON BLANC

100% Sauvignon Blanc. Bright aromas of passionfruit, pink grapefruit, lychee, gooseberry and fresh-cut grass. The light-to-medium-bodied palate is flavorsome, crisp and completely dry, balancing white pear and tropical guava elements against a vibrant acid structure. The finish is long, clean and refreshing, with lingering green apple and subtle mineral brightness. Pairs with fresh seafood dishes like oysters and grilled prawns, light appetizers and tangy goat's cheese salad.

Sourced from select vineyards across the Limestone Coast region of South Australia, a premier cool-climate area particularly known for maritime sub-regions like Robe and Mount Benson. The vines are positioned on low-lying coastal plains and ridges that are continually buffeted by cooling Southern Ocean sea breezes. The soil consists of a thin layer of nutrient-dense red clay loam—widely known as terra rossa—sitting directly over a well-draining, fossil-rich marine limestone base. The vines are 12-20 years old. The grapes were gently pressed and underwent a temperature-controlled cool fermentation entirely in stainless steel tanks.

Fox Tales is an approachable, value-driven label produced by Limestone Coast Wines, a family-owned company based in the cool-climate Limestone Coast region of South Australia. Focused entirely on sustainable, vegan-friendly production, the brand is crafted by winemakers Leisha Munro and Stephen Tierney to deliver expressive, fruit-forward wines that offer exceptional regional freshness. Alongside classic, expertly crafted staples like their bright Sauvignon Blanc and robust Cabernet Sauvignon, Fox Tales distinguishes itself by championing alternative, globally inspired varieties suited to South Australian soils. This is highlighted by their deeply intense, estate-grown Saperavi—a rare, ancient Georgian red grape variety that thrives in the region and delivers a uniquely rich, dark fruit profile.
